THIS BELONGS TO DANNY SNEED (on really?)

RESERVED FOR MISS WINDMILLER

Dear Danny - It has been a fun three years having you in concert choir. You have always been there when I needed you. (Even from the days of the silly soph!) Your musicianship is unquestioned. A few more years of maturing vocally and there's no telling what the possibilities are. But most of all, your tremendous interest in everything musical is always an inspiration to any music teacher. Pitourne!

RESERVED FOR KATHY CARROLL

Danny,

I seriously doubt that I could get all that I would like to say on every page of this book, much less 1/2 page. I could never share the many good times we have had with anyone else. Remember walking me home after musical practice, because I was scared to go alone? And who else would be awake, much less be able to drive at 6 a.m. Someone once used the word "angel" when describing you... and I could not agree more. You are the more gentle and caring person I've known, and I have grown to love you as I know you. Please keep in touch... I plan to see you a lot. I love you

Kathy

The 1973 SUNDIAL staff dedicates this book to one of the finest teachers in Sunset's history. Her guidance and inspiration have proved to be an asset to all the students she has influenced. For these reasons, and many more, we proudly dedicate the 1973 SUNDIAL to Mrs. Kathleen Hood.

Tributes

Miss Sue Smith

Dear Bisons,

We have had a great year. Sunset has been luckier than most schools in Dallas. The Bisons have proven again that Sunset really is "the best of all the rest."

The spirit and cooperation shown this year have been tremendous. I want to thank all of you for that. It has not been easy, but Bisons always come out on top.

Many of us will be graduating this year, but the Spirit, Knowledge, and Friendship of Sunset High School will never leave us. Those of you remaining here will have the responsibility of continuing Sunset's tradition. Remember that you will be only as strong as your weakest members.

My special thanks go to Mr. Hugo who must be the most wonderful man in the world, or at least in the Dallas Independent School District. And also I would like to thank Miss Smith, who is the most understanding Senior Counselor in the world.

Good luck to you all. Remember that Bisons are forever bound by two things: God's love and the love of Sunset.

May God Bless you

Sincerely yours,

Becky McCally

Danny,

"Hi" - I'll never forget that one word that made us such good friends, (except of course, for Alfredo Eduardo) Anyway you have been a great friend. I'll never forget the dumb stuff we did when ^{we} were young. ^{But} Since we have matured, we still do dumb things. By this time B.T.U. (Pope Betty Williams) is driving me up the wall. (literally) SHE'S NUTS .. but so am I... I must be to be friends with you. One good thing about our friendship is we never argue (well almost never). Barry and I get along great... we're going to have a fabulous time at U.T.A. (just kidding) But remember you have others.

All seriousness aside, it really has been a great 3 yrs (don't you see). Hopefully we will be friends forever or at least until one of us dies. ukkk.)

"me either"

for the true sound of Sunset listen, the Bisons Speak

In my three years at Sunset High School I have grown in knowledge and maturity. The great traditions of Sunset were just that my first two years, great. But this year the traditions and spirit of the Bisons have dwindled. It is up to the Seniors of 1974 to restore the faith in these traditions and get the Bison spirit on top again.

To the Class of 1973 I would like to impress upon you the importance of obtaining an additional education after finishing at Sunset. Knowledge is the key to success of life. You have filled my three years at Sunset with memorable joys. There have also been a few sad moments also. Keep the Sunset Spirit with you always as you travel down the road of life.

Keep the faith of
Jesus and may God
bless every one of you

Cris Hatcher

Fellow Bisons

During our three year stay at Sunset, we have learned so very much. Not only have we become adults, but we have also learned to conduct ourselves as adults should. We no longer think as adolescents. Instead, we have set our minds on the thought of whether we will play a major or minor role in the molding of our futures.

For some of us our goal has been accomplished by graduating, but for others, the quest for that "shining star" has just begun. We are not completely satisfied with the accomplishment of one goal; we set upon ourselves goal after goal after goal.

We are very lucky people, surrounded by our friends and by a great faculty, who has made us realize that we are the "future" and that we must try to make it better for the coming generations. We have come to love and respect all the things and traditions that make Sunset the outstanding school it is today and will continue to make it so.

Now that our stay (Seniors '73) is over, we will scatter throughout the world. Friendships will be broken and Sunset High School will be left behind. But no matter what we do or where we go, Sunset will always remain in our hearts.

Hope everyone gets the best out of life.

Love va'll.

Martha Garcia

No person stays the same each and everyday. Just as our body cells change and grow, so do the facets and dimensions of our personalities. Perhaps the most drastic and permanent have taken place in our years at Sunset. We have shirked many "protective" traits or trademarks and realized that a person who knows himself does not need to be known. If we have come to learn what goes on in our own minds and hearts, we may find it easier to understand the minds and hearts of others.

Never should we take another's views as our own, for this only stifles the mind, and soon the free-thinking part of your soul. Being stifled, we become dissatisfied with ourselves, learning to hate. Above all, we cannot let ourselves hate for the sake of hate. Sunset is the place to begin a life built on a foundation of understanding and empathy.

I am very optimistic about the world we are starting to build. A more aware, sensitive, and hopefully, a more peaceful world.

Kathy Carroll

When I look at the world around me and consider my life, one of these three attitudes usually controls my thoughts.

"Is it all for you me?"

"What can I do with this mess?"

"Take the bitter with the sweet."

My experience at Sunset, which was shaped by every one of you, has given the times and the situations for all of these attitudes. It has been good, and it has been bad. It has been right, and it has been wrong. It has been neither right nor wrong, nor good nor bad. But one thing is always certain: life is always changing. If we can use what we have learned from life at Sunset, and apply it while we live on this everchanging planet, perhaps we can change it for the better. In return, the earth and its' inhabitants can give us the love and happiness with open arms when it is there, and endure the sadness with the hope provided by your creator.

1972-73 started as a year of uncertainty. No one was sure what the courts would do or when they would reach a decision. Would the boundary lines remain the same? Would students be bussed to other schools? Almost half our students were in Sunset for the first time. And yet as the year progressed, more and more students were falling into the traditions that have been a part of Sunset for many years. Always striving to achieve the pride that comes from belonging to a group when the individual has had a part in helping the group achieve greatness. This student body is to be commended for its dedication to the purpose of education and understanding within a community.

1972-73 has brought us new problems, but has caused us to find new answers. Perhaps our future will be better because this year has taught us to have faith in the students and family of Sunset High School.

The Board of Education and staff of the Dallas Independent School District are committed to providing a quality program for every boy and girl in the district. This philosophy includes all the children of all people, emphasizes the need to reduce dropouts, and provides each child a program suited to his needs.

This aim has not been reached, and many students have found the school irrelevant to their needs. The purpose of developing these centers is to help children of school age find meaningful experiences in school.

Denny is
 It's even so bad to be in a good house and have the
 feeling that you don't want to leave it. I see so many
 people in a house as if they were in a life that their
 friends prepare themselves for a life that they
 that can't be sure of. By the way I need

Count the good things you've got going.

Maybe it was easy
maybe it was tough. Either way,
it's good to have the
high school years behind you. Now you
can do and be just about anything
you choose.

You've got a lot of good things
going, a lot of them on electricity.
Music is only one example.
Electricity brings your favorite
artists right into your own

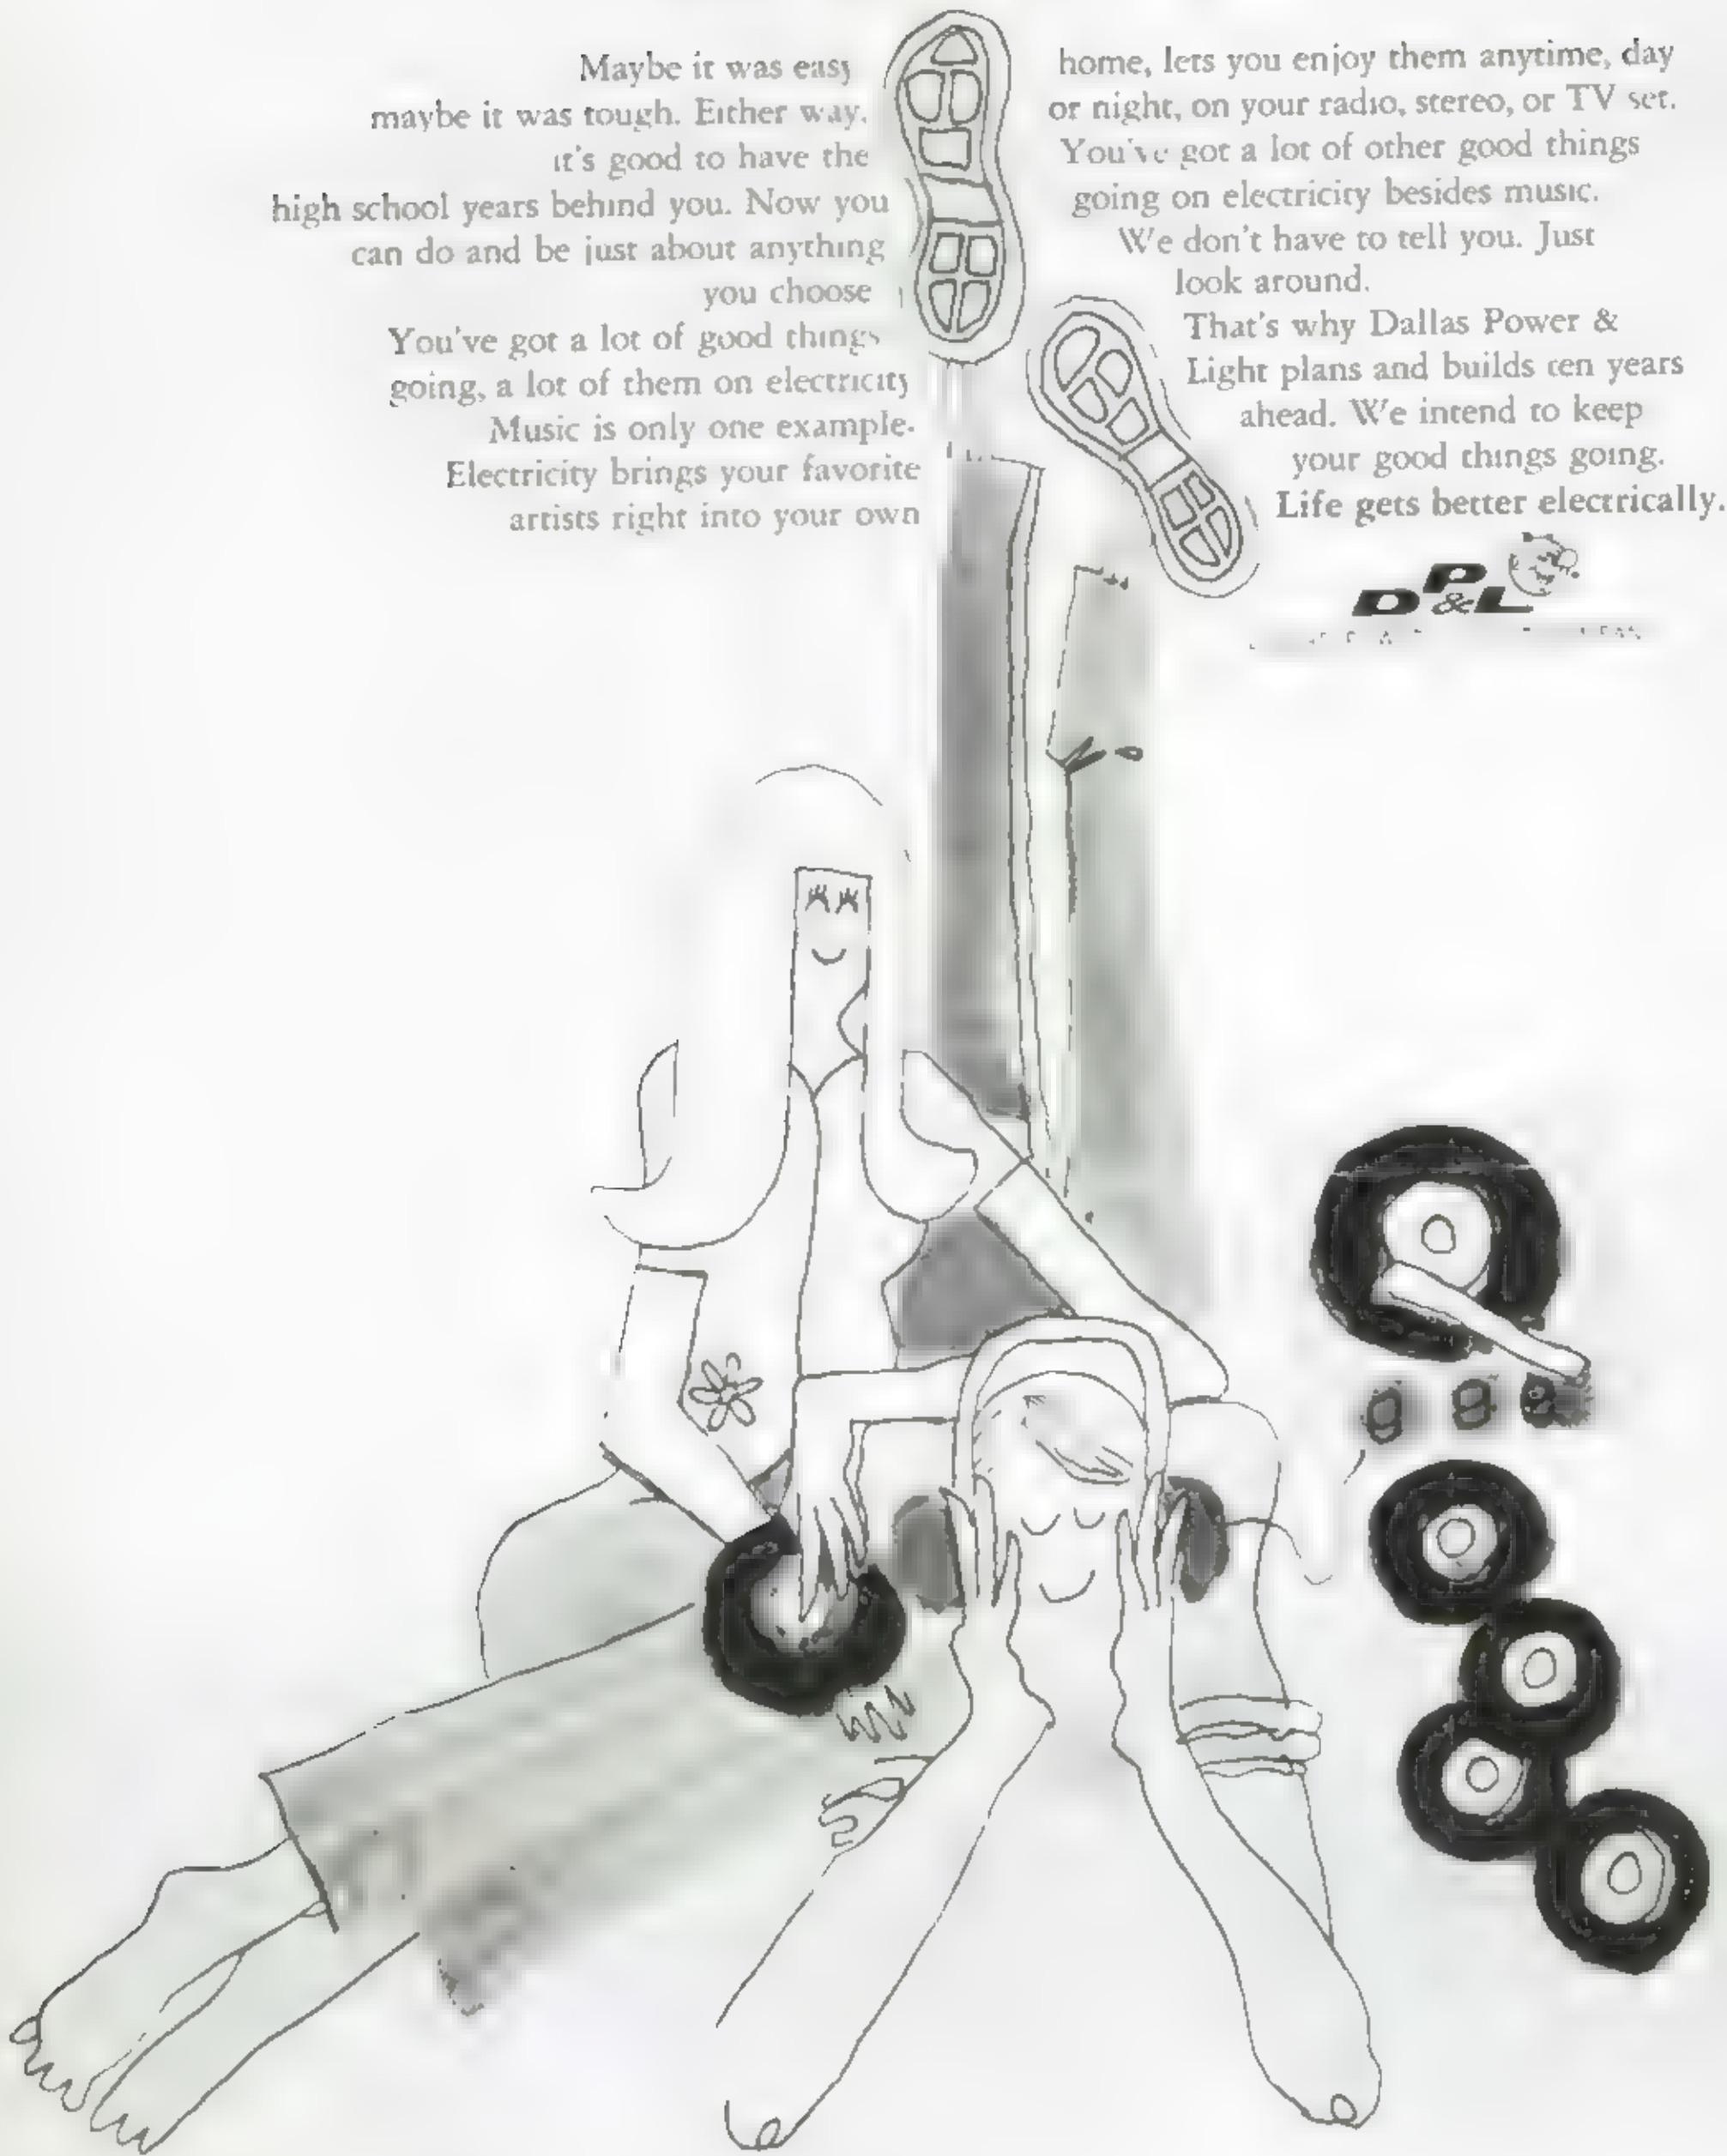

home, lets you enjoy them anytime, day
or night, on your radio, stereo, or TV set.
You've got a lot of other good things
going on electricity besides music.

We don't have to tell you. Just
look around.

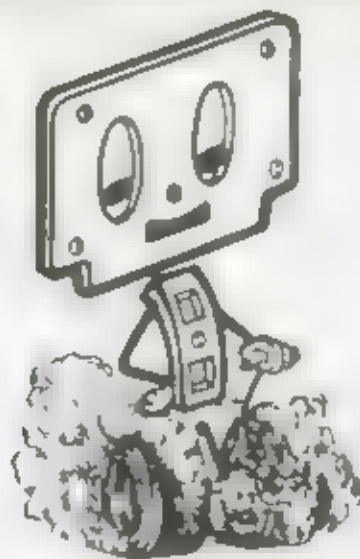

That's why Dallas Power &
Light plans and builds ten years
ahead. We intend to keep
your good things going.
Life gets better electrically.

Danny,

Wow I can't believe its almost over! Do you remember the first of since I
when I sat next to you- and you would whisper 'Nancy', I knew right then
that we were going to have fun this year. Remember sitting in there laughing
every day. Remember the time we played being at camp - (that was funny),
remember my tragic "one" "Ahh - never" (you laughed all day), remember
um - that was good. There are so many fun things we have done in there
this year. That class would never have been as much fun without you.
(I really mean it) You always kept me in stitches. "Stevenson, Kipling, Kim,
Jungle Books" And also, with all your funny faces. Remember sitting in
all the assemblies together - I remember - hosing you up the stairs
all year - you have got to have the longest legs. Remember sitting in lunch
making fun of Angela, and Kevin! She knows; "That's the one thing that
makes me mad.", there are so many - "You like Alfred better than me" - etc...

Danny, I know that our good times are not over yet - by far - we still have a week of being counselors together to go. That is going to be so much fun. I'll probably be laughing and chasing you all week. I can't wait we have to get together and plan some of the things we are going to do.

I have really enjoyed knowing you- you are a one of a kind guy. I mean that in the nicest way I pray that you will have a meaning time at school next year- and that you will grow from all your situations. I have really enjoyed knowing a great guy like you, I only regret not having known you longer. You really mean a lot to me, cause I think you're fantastic. Keep that wonderful personality. Keep growing in your faith- you know that it is the only lasting thing.

Thanks for all the fun memories

I love you lots,

Nancy

I really don't know what to say I know
I'd never had made it without you. You're
my favorite person and you'll always be
in my heart I'll never forget when we
got married. That was a happy moment.
I really love you very much and
I hope that we can stay in love I'm
sure I'll never forget you. You're just great

forever. I'll always love you. Love
me.

Danny,

We've had some great years at Rosemont, Drivins, and Sunset together. But I think we'll admit this has been the best year ever. The fun we've had together in Concert Choir the past 2 years will probably be the most hilarious experiences of my life. You made these years for me, they wouldn't have meant anything without Danny. Truly you are a facet on the top side of my stone of friends you've meant alot to me and I know in later years when I can't depend on any friends or anyone I can be comforted by your memories, I may turn to you for help. Thanks for being my boyfriend, I admire and love you very much. There's so few people who bring light and laughter to the world nowadays, but be assured you are a ray of sunshine. The world has much to offer us it's time to leave the security blanket of public school and face new situations and dimensions. I hope and pray for you that the opportunities you meet will be rich and plentiful. Please keep in touch. I'll be looking for great achievement from you. Keep the laughs coming and your crazy attitude that makes you Danny. Be good and stay handsome C.K.: Remember who you are and whose you are.

God Bless you. Love,

Katherine

unny,

Thanks for every good thing that you've done for me
the good things that I've done for you will be
in that you may need it. I'm in the way,
the with and the time. I don't know what the
future is like. I'm sure I'll try to do so to get to
know it. I'm sure the future is not in this
world as far as away from an everyday relationship
with you. I'm sure you'll find a way that
works. I'll be there for you in a heart
beat because of love.
